

EP230 / EP270 / EP310

Electric Airless Paint Sprayer

EP230 EP270 EP310 electric airless sprayers with piston pump are specifically designed for the professional painter, equipped with EzControl system and TEFC Brushless DC motor. Ceramic pump can improve the anti-friction effect and ensure exceptional life. It's the ideal choice for contractors who need a higher output, higher-quality sprayer for daily use on residential jobs.

- Durable Quality Source
- Brushless DC Motor
- Easy out manifold filter
- Smart Pressure Control system

Airless Sprayer Leading Manufacturer

Advantage

Brushless DC Motor

Brushless design means that you will never need to replace brushes which will reduce the maintenance cost.

Durable Quality Source

The HVBAN pump is exceptionally durable and reliable. Ceramic piston rod and cylinder for EP270 improve the anti-friction.

Germany INA bearing, gear with level 5 grinding, USA leather packing etc. deliver superior reliability and lifetime.

Easy out manifold filter

Easy out manifold filter will reduce the tip clogs. The pump filter could be disassembled by hand easily.

Smart Pressure Control system

Latest pressure control system delivers a consistent spray fan at all spraying pressure. And with digital display, you can read and regulate the pressure easily. The microprocessor will generate the fast response when spraying.

Model	EP230	EP270	EP310
Maximum Flow (L/min)	2.3	2.7	3.1
Maximum Working Pressure	23 MPa	23 MPa	23 MPa
Nozzle Size(In.)	0.021	0.025	0.029
Dynamic Power	1300W/1.7HP	1500W/2HP	2200W / 3HP
Power Source	Brushless DC Motor		
Power Type	220V,110V,50-60HZ,		
G.W. (Kg)	24		
Package Size (cm)	41X50X54
