

PS 52

The PS 52 thicknessing planer has been designed to satisfy the most demanding craftsmen and companies.

ADVANTAGES

Sturdiness: Machine frame of notable thickness and solid construction. Ground cast iron thicknessing table with micrometric adjustment of raise & fall by 4 steel screws protected against dust by bellows.

Reliability: Feed rollers mounted on independent floating ball bearing bushes. Planer unit with infeed

TECHNICAL DATA

	PS 52
Thicknessing table dimensions	530 x 900 mm
Working width	520 mm
Max. stock removal	8 mm
Cutterblock diameter	120 mm
No. knives	4
Feed speeds	5/8/12/18 m/min
Min./Max. working height	3,5/250 mm
Motor power at 50 Hz	7 kW / 9,5 Hp
Motor power at 60 Hz	8 kW / 11 Hp
