

Fine Finish Low Pressure RAC X FF LP SwitchTip, 208

Part Number: FFLP208

Features

For fine finish applications

- Less Prep & Cleanup Time
 - Less mess with less overspray
 - Put the paint where you want it
- Easiest Pattern Overlap
 - Softer spray fan pattern
 - Easy to apply any material to any surface
 - Consistent blended finish quality
- Extended Life
 - Spraying at half pressure doubles tip life
 - Reduced sprayer maintenance – up to 2X life
- SmartTip Technology
 - Exclusive internal tip geometry
 - Reduces energy required to atomize paints, stains, and other materials
 - Delivers a superior finish with less pressure
 - Works with SmartControl on select Graco sprayers
- Best Tip on the Market
 - Works with any airless sprayer
 - Longest lasting fann pattern
 - Highest quality finish with a consistent spray pattern
- Easy to Identify Tip Size
 - Large raised tip size numbers are always legible – even when covered with paint

- Superior Tip Design
 - Locking tab ensures tip stays securely in guard
 - Snaps tip in spray or reverse position
 - OneSeal tip gasket installs with no tools
 - Solvent seal available when using extremely hot solvents
