

Dräger X-plore® 6530 Full-Face Mask

The Dräger X-plore® 6530 is the most widely used full face mask from professionals in a wide variety of applications. It meets the highest demands for quality, reliability, secure fit and comfort. This full face mask is the successor to the Panorama Nova masks, a range which has proven itself over decades of use worldwide.

Benefits

Safe and comfortable fit

A double sealing frame with threefold sealing edges offers safe protection and a secure fit for almost all face shapes. The mask body made from durable EPDM ensures a great level of wearing comfort even during prolonged use.

Large field of vision

The distortion-free lens with 180° wide angle guarantees a large field of vision with excellent peripheral vision. You have the choice between a lens made from impact-proof polycarbonate (with either a plastic or stainless steel lens frame) or an extremely scratch-resistant Triplex lens with high chemical resistance (with stainless steel lens frame).

Efficient ventilation system

The efficient ventilation system with separate inner half mask ensures a fog-free lens and unobstructed view.

Versatile use

The X-plore 6530 is equipped with an Rd40 connection in accordance with EN 148-1 for use of the Dräger X-plore® Rd40 filter series.

5-point harness

The comfortable five-point head harness not only ensures that the mask can be donned easily and quickly, but is wide enough to prevent any pressure points on the wearer's head.

Simple servicing and logistics

One universal size simplifies logistics and storage. An inside barcode allows for ease of recording and servicing the mask inventory.

Clear voice communication

An integrated stainless steel voice diaphragm facilitates good communication.

Accessories

D-7582-2011

Full face case, hard plastic for full mask

- Order No.: R 51 019

ST-397-99

Lens overlay protectors, self-adhesive

Order No.: 40 55 092
