

VOLTAGE TESTER

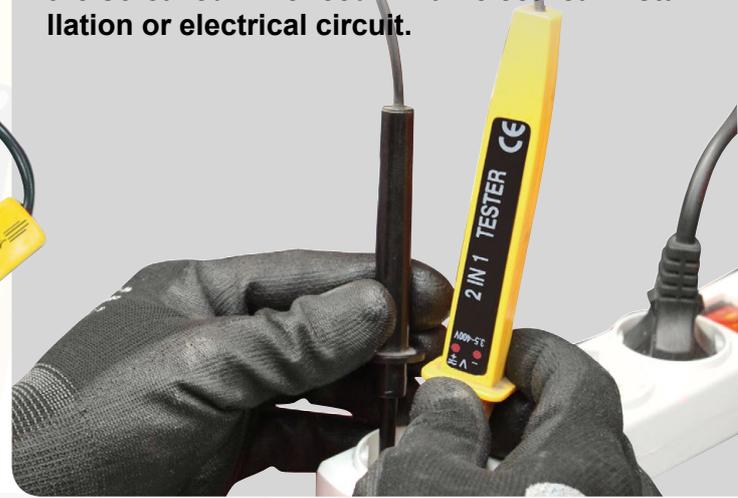

EGA Master has developed an extensive range of electronic measuring and testing devices which stand out due to their high precision and innovation. Voltage Testers of all varieties and sizes (Classic, digital, 2 in 1...) are available.

1. Voltage Testers allow the user to check whether the cable has power, ie, to determine the so-called "live feed" in an electrical installation or electrical circuit.

Maximum effectiveness!

CE *G12

2. Handles are made of insulating plastic, for example ABS material. Testing wire made of special steel or Cr-V steel.

VOLTAGE TESTER

Test range
 100-250V (AC)

COD	↔	← L → mm	V	gr.		
66072	3x15	150	100-250	20	12	1
66073		190	AC	30		

TECHNICAL SPECIFICATIONS

MATERIAL	Handle	ABS
	Testing wire	Special steel
MINIMUM HARDNESS	Testing wire	50HRc
FINISH	Handle	Red
	Testing wire	Chrome

*G12: 12 MONTHS OF WARRANTY

DIGITAL VOLTAGE TESTER

With Neon lamp!

COD		V	gr.		
66074	3x15	0-220 AC/DC	40	4	1

5 Voltage levels
12-36-55-110-220V (AC/DC)

TECHNICAL SPECIFICATIONS

MATERIAL	Handle	ABS
	Testing wire	Special steel
MINIMUM HARDNESS	Testing wire	50HRc
FINISH	Handle	Black and yellow
	Testing wire	Chrome

ELECTRONIC TESTER 2 IN 1

COD		V	gr.		
66075	190	6-380 AC	220	4	1

Tester 2 in 1
Rang 6 - 380V

TECHNICAL SPECIFICATIONS

MATERIAL	Handle	ABS
FINISH	Handle	Black and yellow

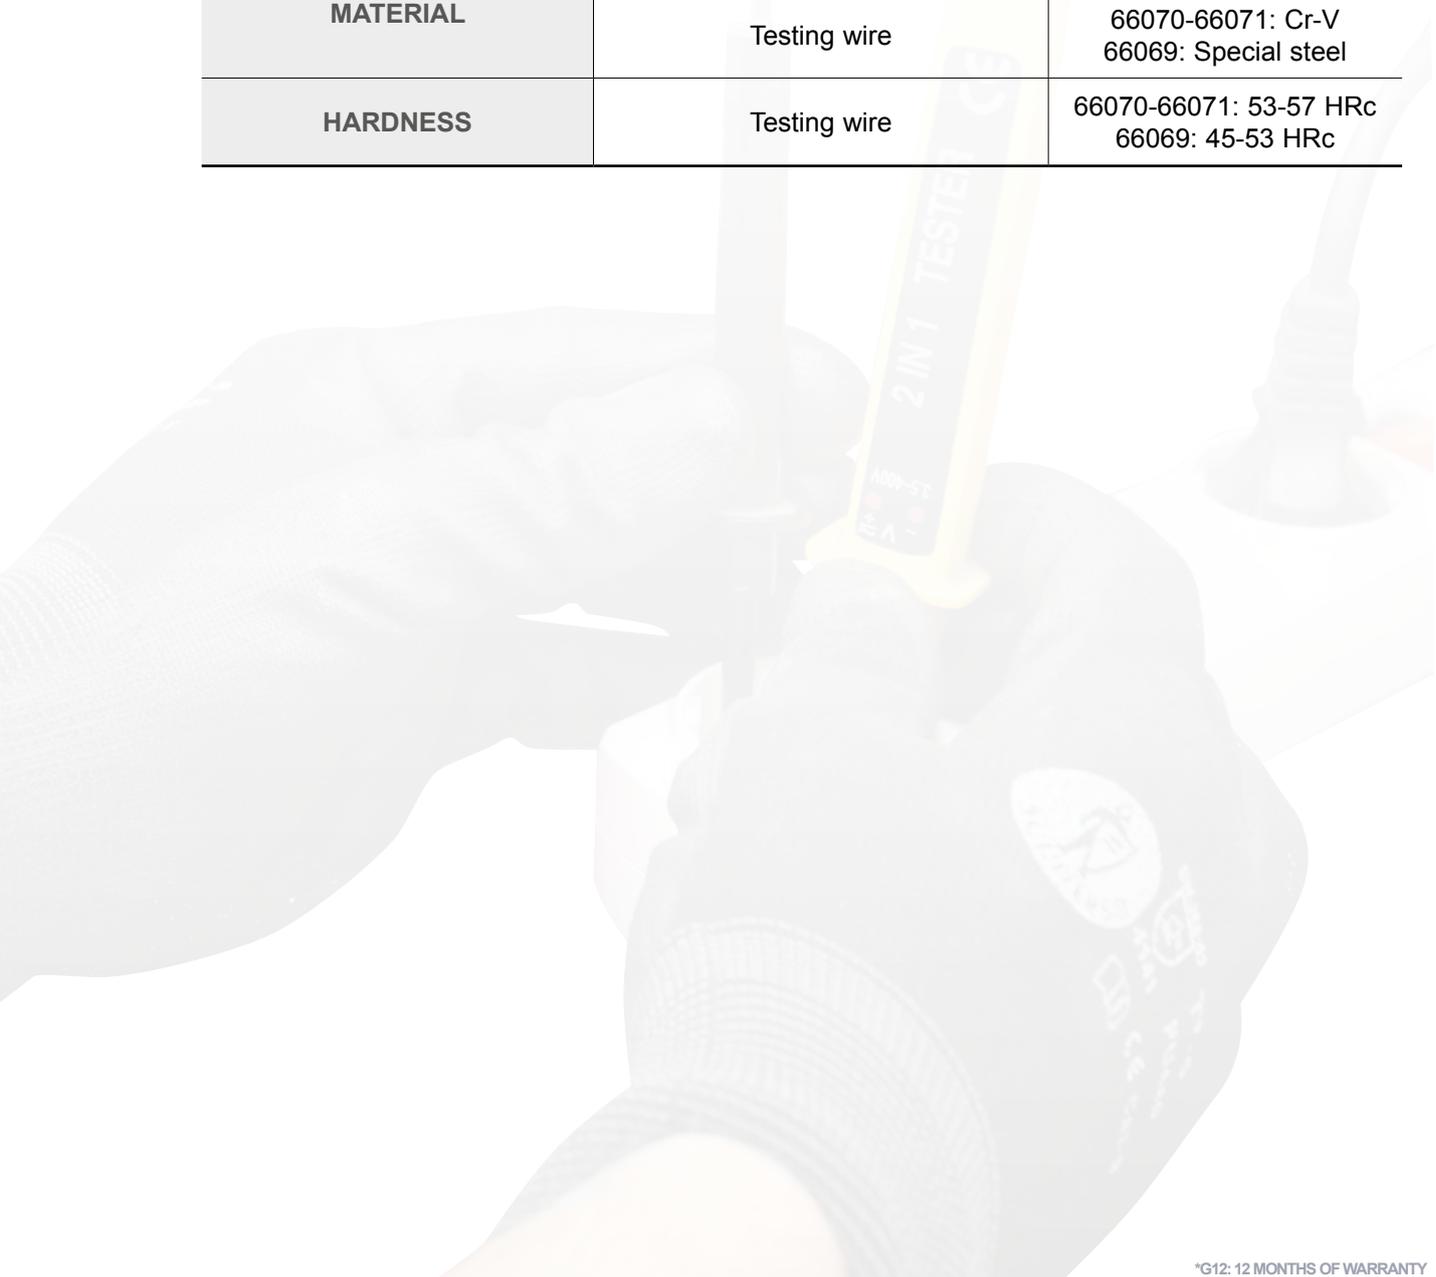

CLASSIC VOLTAGE TESTER

COD			V	 gr.		
66070	3x65	140	100-250	20	12	1
66071	4x100	190	AC	35		
66069	3,5x100		90-480	40		
			AC			

TECHNICAL SPECIFICATIONS

MATERIAL	Handle	Plastic
	Testing wire	66070-66071: Cr-V 66069: Special steel
HARDNESS	Testing wire	66070-66071: 53-57 HRc 66069: 45-53 HRc

*G12: 12 MONTHS OF WARRANTY
