

VOLTAGE TESTER

EGA Master has developed an extensive range of electronic measuring and testing devices which stand out due to their high precision and innovation. **Voltage Testers of all varieties and sizes (Classic, digital, 2 in 1...)** are available.

Maximum effectiveness!

CE *G12

VOLTAGE TESTER

1. Voltage Testers allow the user to check whether the cable has power, ie, to determine the so-called “live feed” in an electrical installation or electrical circuit.

2. Handles are made of insulating plastic, for example ABS material. Testing wire made of special steel or Cr-V steel.

**Test range
100-250V (AC)**

COD		L mm	V	gr.		
66072	3x15	150	100-250	20	12	1
66073		190	AC	30		

TECHNICAL SPECIFICATIONS

MATERIAL	Handle	ABS
	Testing wire	Special steel
MINIMUM HARDNESS	Testing wire	50HRc
FINISH	Handle	Red
	Testing wire	Chrome
