

HandyArc Ø3.2mm

Work hard all day long

HandyArc Ø3.2mm

The new HandyArc Ø3.2mm comes in a new concept of ultra-portable welding machine. It is designed for all jobs to be done using OK 46.00 or OK 48.00 up to 3.2mm stick electrodes all day long.

The ultra-light weight (only 3.3kg) and the included shoulder strap allows you to do all jobs on high heights.

Designed also for tack welding or any application using OK 46.00 or OK 48.00 up to 3.2mm stick electrodes.

- Ultra-light and portable: only 3.3kg;
- For all indoor or outdoor jobs;
- Excellent performance and arc stability on all stick electrode types (including E7018);
- You can weld all materials: carbon steel, aluminum, stainless steel and also chromium and nickel alloys;
- High power fan to cool down the equipment for all day job application;
- Easy to use: adjust the welding parameter by selecting the stick electrode diameter;
- Ready to use: welding cable (3m), return cable (2m) and shoulder strap included;
- Designed in compliance with international standard IEC 60.974-1;
- Single phase connection on 230Vac.

Main Applications:

- Tack welding;
- General fabrication;
- Repair and maintenance;
- Hobby;

HandyArc Ø3.2mm

Technical Data:

Mains supply	230Vac +/-10% , 1ph, 50/60Hz
Circuit breaker	32A
Current range	20 – 160A
Open Circuit Voltage	60Vdc
Efficiency	85%
Apparent power	6.6kVA
Duty cycle	160A @ 20%
	92A @ 60%
	72A @ 100%
Protection class	IP21S
Dimensions L x W x H	98 x 248 x 192mm
Weight	3.3kg
International standard	IEC 60.974-1

Ordering Information:

0700300888 HandyArc Ø3.2mm

Accessories (included):

- 3 meters welding cable with electrode holder
- 2 meters return cable with earth clamp
- Shoulder strap
