

## NEW MINI XTREME MIX

**SAGOLA** presents its new spray gun where is the result of a great design work, ergonomics, sturdiness and quality.

A perfect fusion between speed and high transfer (above 80%) with quality finishes of **XTREME** aerographic systems.

Designed to last over time thanks to its robustness and quality of its components. To this we add its manageability, softness and **reduced size** making it ideal for **difficult jobs** and the smallest mixed gun in size of the market.

## VERSIONS

- **WATERBORNE**
- **HYDROSOLUBLE**
- **ULTRA VIOLETS**
- **IDEAL FOR COMPLEX JOBS**

### Professional **SAGOLA** solutions for all applications

| Code       | Aircap | Air inlet                | Product inlet           |
|------------|--------|--------------------------|-------------------------|
| 351 302 01 | 11/40  | Quick connector<br>8 mm. | 1/4"                    |
| 351 302 02 |        |                          | Swivel coupling<br>1/4" |
| 351 302 03 |        | Coupling<br>M16          | 1/4"                    |
| 351 302 04 |        |                          | Swivel coupling<br>1/4" |

- New XTREME technology aircaps.

| Code       | Aircap | Air inlet                | Product inlet           |
|------------|--------|--------------------------|-------------------------|
| 351 302 05 | 13/40  | Quick connector<br>8 mm. | 1/4"                    |
| 351 302 06 |        |                          | Swivel coupling<br>1/4" |
| 351 302 07 |        | Coupling<br>M16          | 1/4"                    |

## APPLICATIONS

### FURNITURE INDUSTRY

- BASECOATS
- LACQUERS
- CLEARCOATS

### INDUSTRIAL SECTOR & INDUSTRIAL BODYSHOP

- ENAMELS
- PRIMERS

**Quality finishes over large surface areas**

## FUNCTIONAL ADVANTAGES

# Mini

## XTREME MIX

- NEW aesthetics with XTREME ergonomic level.
- **Forged and anodized body**, providing sturdiness and protection to corrosion both externally and internally.
- The external **cleaning** of the gun are minimized by its **polished shine**.
- easily and smoothly to use.
- **XTREME** technology nozzles, which gives an extreme level of finishing and a drastic reduction in consumption painting.
- **METAL TO METAL** technology, where all sealings are free of joints.
- **Security** system. Trigger lock.

FUNCTIONAL ADVANTAGES

**SAGOLA**  
an Elcometer company

## KEY FEATURES AND BENEFITS

**HIGH RESISTANCE and ANODIZED FORGED aluminium body.**  
REGISTER DC 924667-0004

**Long lasting SELF ADJUSTING PACKING GLAND.**

**MIXED PAINT TIPS built with STAINLESS STEELS body**

Check table, "accessories and complement" section

**NOZZLE and NEEDLE fittings made of TUNGSTEN CARBIDE**

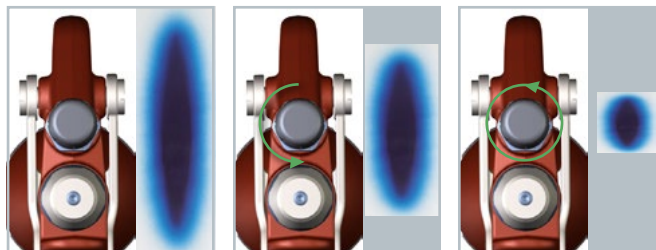

**SMOOTH action TRIGGER 100% STAINLESS STEEL**

**ALL PARTS in contact in the FLUID made of STAINLESS STEEL**

**FILTER HOLDER that guarantees the QUALITY of the PRODUCT to be sprayed through the filter (100 meshes)**

**SWIVEL COUPLING, avoiding tension in the fluid hose**

High PRECISION FAN  
REGULATOR, offering FULL  
CONTROL of the fan size

SECURITY SYSTEM  
Trigger lock

MAXIMUM PRESSURE of 200 BAR  
with **YELLOW** SPRING of 120 BAR  
with **RED** SPRING of 200 BAR

PROGRESSIVE AIR VALVE  
Better CONTROL and PRECISION

TOOL-LESS NEEDLE  
disassembling system  
Similar to low pressure  
sprayguns

**EXTERIOR  
AND INTERIOR  
CORROSIVE  
PROTECTION  
EN ALL PARTS  
OF GUN**

PUSH-FIT COUPLING,  
together with the swivel  
fluid coupling, offers full  
movement freedom
