**SR 420**  
Powerful Mistblower

Powerful mistblower with comfortable shoulder straps. Standard with cone, deflection and double deflection mesh.

Versions	
SR 420	

**Technical specifications**

Displacement	56,5 cm³
Weight <sup>1)</sup>	11,1 kg
Sound pressure level <sup>2)</sup>	101 dB(A)
Sound power level <sup>2)</sup>	114 dB(A)
Vibration value, right <sup>3)</sup>	2,3 m/s²
Container capacity	13 l
Max. air throughput <sup>4)</sup>	1.260 m³/h
Max. horizontal range	12 m

Deviations from the product range and information provided here are possible, depending on the country. STIHL reserves the right to make changes to technical specifications and equipment.

**Standard equipment**

#### **STIHL ElastoStart**

STIHL ElastoStart reduces the shock caused by the compression of the engine during starting. The compression shock is taken away from the user's joints and muscles through a spring or rubber element in the starter handle.

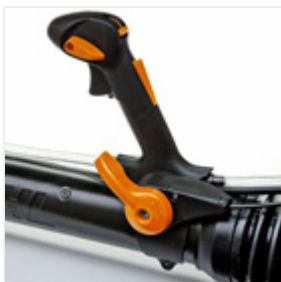

#### **Anti-vibration system**

Intense vibration at the handles of power tools can lead to long-term effects on blood vessels in the hands and arms. STIHL has therefore developed an effective anti-vibration system whereby the oscillations from the machine's engine are dampened which significantly reduces vibrations at the handles.

#### **Carrying system**

Mistblowers are equipped with a practical carrying system. Weight is evenly distributed across the shoulders and back to ensure maximum user comfort.

#### **Multi-function control handle**

Easy, comfortable thumb-operated control means the operator's hand never leaves the handle.

Deviations from the product range and information provided here are possible, depending on the country. STIHL reserves the right to make changes to technical specifications and equipment.

### **Accessories**

#### **Pressure pump kit with ULV nozzles**

ULV nozzles produce very fine droplets from the liquid. The pressure pump keeps the amount of spray constant and mixes the liquid in the tank. Suitable for the SR 420 and SR 450.

### **Versions**

---

For SR 420

---

### Spreading and dusting attachment

The mistblower can be retrofitted with the spreading and dusting attachment conversion kit, for applying granulated material. For SR 420.
