

# Technical Specifications

## Designation:

Cargo Lashings

## Description:

Two part system that consists of a short part and a long part with tensioning device provided on the short part. Variety of hooks can be provided. All systems can be provided in any length.

Standard length: 10m

## Characteristics:

Part no	Width	Lashing Capacity	Breaking strength	Weight	Webbing Colour
CL01JR	1"	360 Kg	1000 Kg	0.6 Kg	Yellow
CL35JR	1.5"	1100 Kg	3000 Kg	1.8 Kg	Yellow, Grey
CL02JR	2"	2000 Kg	5000 Kg	2.5 Kg	Yellow, Orange, Blue
CL03JR	3"	3750 Kg	10000 Kg	7.2 Kg	Yellow
CL04JR	4"	5000 Kg	10000 Kg	7.5 Kg	Grey

## Recommendations:

The size of the load together with the intended method of use, transport environment and the nature of the load will affect the correct selection.

For stability reasons free-standing units of load have to be secured with a minimum of one pair of web lashing for frictional lashing and two pairs of web lashing for diagonal lashing.

Do not use different lashing equipment to lash the same load.
