

WIRE FEEDER WF5 V48 50/60HZ (CE030635)		
TECHNICAL DATA		WF 5
Single phase input 50/60 Hz	V	48
Motor power	W	100
Rolls	No.	4
Feeding speed	m/min	0,5 / 20
Solid wire (steel)	Ø mm	0,6 / 2,4
Spool	Ø mm	300
	kg	20 MAX
Dimensions (mm)	WxLxH	570/275/400
Weight	kg	17

4 roll professional wire feeding mechanism

Dual-wire rolls allow two different wire types to be available on one drive roll, replaceable without any tool

Graduated knob to achieve the most correct value of the wire pressure, which remains unchanged also after any arm opening and closing

Wire speed electronic adjustment

External Burn-Back and motor ramp adjustments for a precise arc striking

2 / 4 stroke selector switch

Gas purge and wire inch switch

Excellent stability

Sloping lodging for wire spools (up to 300 mm Ø / 20 kg)

Robust handle and lifting eyebolt
