

Hot water high-pressure
cleaners

Kaiman

INDUCTION
MOTOR POWERED

BRASS
PUMP

Equipped with:

- Three high durability steel pistons, brass axial pump head with built-in by-pass valve • Double motor (pump and burner)
- Vertical burner with high thermal efficiency steel coil.
- Temperature regulation gauge. • Glycerine pressure gauge
- Automatic Stop System • Detergent built-in tank for direct suction.
- Power cable with plug

Standard equipment:

3.700.0036

3.701.0015

3.103.0048

4.618.0049

8 m.
